Resistance to hardest terms of usage.

Resistance to scratches from utensils such as knives and forks and other metal objects.

Resistance to under conditions of climate.

Resistance to any hot trays, pans or teapots etc. which may be placed directly on their surfaces for short periods of time.

Even burning cigarette ashes that may fall onto, will not leave a mark or a trace on the surface.

It is hygienic and cleaning easily.

The surfaces and sides are resistance to humidity due to their special structural features.

Should be used Umbrella
